

ADVANTAGES!

PUMA-CRETE® Urethane Mortar Flooring

Enhanced resistance to Chips, Spalls, and Impact:

PUMA-CRETE® handles repetitive scraping and scratching better than competitive systems.

Permanent Non-Slip Texture:

PUMA-CRETE® retains its texture, even as it wears.

Extreme Resistance to Thermal Shock and Thermal Cycling:

*Withstands hot spills and repeated thermal cycling (hot washdowns, steam cleaning, etc.) without breaking down.
(-50 to +250 deg. F) (-45 to +121 deg C)*

Virtually No Odor:

PUMA-CRETE® has no VOC's that can taint your product (No risk to open food products).

Fast Turn Around:

PUMA-CRETE HF requires only one pass installation (one day). Many projects can be completed over weekends, with no costly downtime.

Turn-Key Installation:

E P Floors is a vertically integrated company, manufacturing the materials, installation with our own crews, and a comprehensive warranty. True turn key responsibility!

Long Term Durability:

Exclusive Five year Warranty.

Moisture Tolerant:

PUMA-CRETE® may be applied over damp surfaces. Withstands up to 12 lbs of vapor pressure passing thru the concrete slab, without delaminating, blistering, or cracking (Competitive systems are rated <5 lbs).

Temperature Tolerant:

May be installed in operating coolers at 35 deg F (1 deg. C) or above.

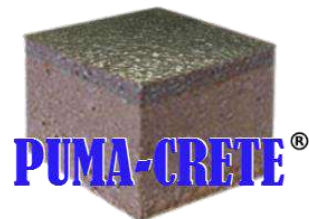

Chemical Resistance:

Excellent resistance to all chemicals used in food & beverage plants.
